FLASHY

ICE CREAM

Urban | Dancehall | Pop

ENG . Flashy Ice Cream, one of the first to start creating a name in trap in Catalan, and with a proposal that mixes trap, dancehall and hip-hop with a very personal and fresh style, have just released their 4th album 'Aftersun', an album where you can see the evolution of the band in all aspects, both musically and visually.

Flashy has got together, as always, with the best producers on the national scene, a lot of experimentation with rhythms and lyrics and luxury collaborations to continue, in this way, raising the level.

After the success of their previous works (with Don gelato they won the Enderrock award for the best urban music album in Catalonia) the band from Sabadell has released AfterSun, an album that has achieved the best numbers of their career. With songs like "Sant Hilari", the hit "Bona vida" with the collaboration of Bad Gyal's little sister, or the official summer song of Icat FM Radio Station 'Un Estiu Perfecte'. A very refreshing and optimistic work that is born from the feeling that emerges when the restrictions due to the pandemic end.

With a new album under their arms and with the feeling of being the referents of urban music in Catalan for thousands of teenagers, they have started their tour with a very elaborate live show, a staging and a production only within the reach of the best.

Flashy Ice Cream are the freshest in Catalonia!!

P.A.W.N.

GANG

Trap | Urban | Drill

ENG P.A.W.N Gang, Pretty Ass White Niggas Gang, is a source of inspiration for a whole promotion of artists and urban style bands.

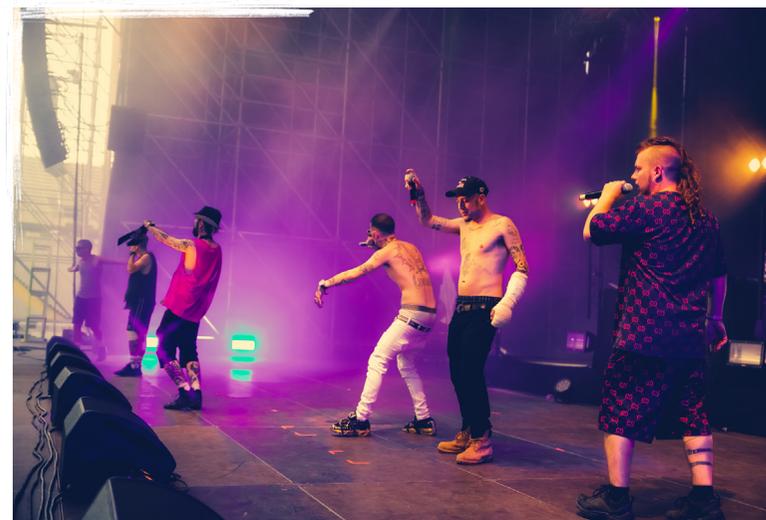

They are a cult band in Catalonia, a musical and cultural phenomenon of an entire country! Last year they released a new album: 'Oli d'Uliba' and a new tour, finally canceled due to the pandemic, but this hasn't stopped them and has made them work hard on a new mixtape that, moreover, represents the ten-year history of the band: 'RESPAWN'.

A new album with more hits that must be added to its enormous repertoire of classics such as "tu i tu", "Nai truca'm al Mòvil", "Jo vui ser pulisia", "Vastit d'amiri" or "io competeixo" that they played together with MANEL live in an APOLO (Barcelona) absolutely packed and dedicated.

P.A.W.N. Gang are rude and rebellious... and also a band that will go down in music history for becoming the first and only referents of an entire generation and of a new musical genre in Catalonia that now rules, TRAP.

Now, more mature and reformed, they are reborn with RESPAWN to celebrate 10 years of career and success.

P.A.W.N. GANG ARE A SHOW IN ITSELF!

BOUNCE

TWICE

Hip-Hop | R&B | Electronic

ENG. Bounce Twice, a band resulting from the union between Lil Aiden, singer, and the producer and DJ Efen Kairos, make a leap in their career by signing with the leading label in urban music in Catalonia: Delirics. With influences such as old school Hip Hop, Soul, R&B and electronic music, they release their debut album 'RAVE ON'.

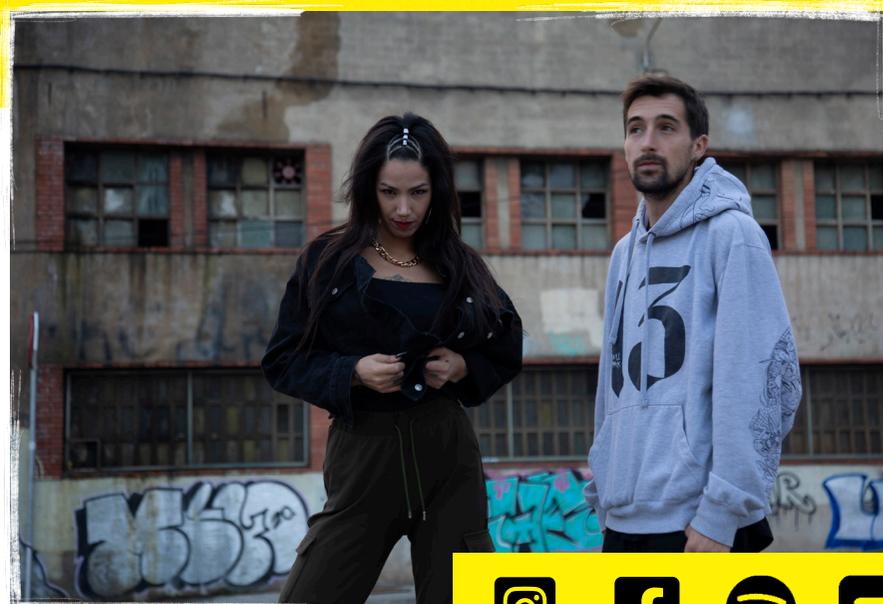

After advancing singles that are already hits such as 'T'he esborrat', 'No em sobren bales' or 'Pull over the ex', they release an album that marks a before and after in the Catalonia's music scene.

Today they are already a reference band in the Catalan urban scene, and with the big difference that it is led by a woman. Its musical proposal is an ode to the party, to recover everything that has been lost due to the pandemic.

A band with plenty of flow, talent, personality and style! Their songs are among the most recurrent on radio stations such as Els 40 Urban, Icat fm, Flaixbac or Radio 3. Artists such as Gertrudis, P.A.W.N. Gang or Calero LDN have already wanted to collaborate with them.

And if there is one thing that stands out in CAPITAL LETTERS in this proposal, it is its energy and strength in live performances. Bounce Twice make even those who have never heard them jump, dance and scream.

Bounce Twice is, without a doubt, a great personality and an electric live show that hypnotizes! You can't miss them!!

SEXENNI

Festive Pop | Urban

ENG . Sexenni is the big surprise of 2022!!! A pop music band with clear urban influences and various styles and rhythms that have come together naturally giving the band its own unique sound. All without forgetting the good vibes and festive essence that gives a very fresh touch to the proposal.

Sexenni was born just a year ago in the basement of a high school, where three friends decide to record a demo. Since then, the proposal has done nothing but grow until it became (in record time) one of the top bands with the most projection in the country.

Its first album, which was released on April 1, "Retrats" is a debut album made up of 10 songs in which Sexenni shows all the virtues, and its unique mix of styles. The proposal has been so popular that in just a few months they have gone from being completely unknown to playing on all the radio stations in the country (Els 40, Flaixbac, Rac105, Icat Fm, Dial, 40 urban, etc.) and hit lists.

Their impact has been such that the leading audience TV show on TV3, EUFORIA invited them to play their acclaimed first single "De lao" live. It was there that the host of the TV show, the singer Miki Núñez, fell in love and even posted his own version of it on networks. And not only that, he has asked to collaborate with the band on another song that will soon see the light.

In just 4 months, the Sexenni phenomenon has already managed to become a leader in radio in Catalonia, thousands of streams of its singles, and a tour with more than twenty shows that range from the stages of LOS40, the Dial Al Sol tour, the Acústica Festival of Figueres, going through the main festivals of Lleida, Barcelona, filling Sala Apol·lo or the festivals of Ibiza. Not only does his music surprise, his live show is forceful, fun and festive.

SEXENNI is already a reference band and they are just starting!!

LAS BAJAS

PASIONES

Electro | Urban Music

ENG . Las Bajas Pasiones is an LGTBIQ Electronic and Urban Music project, where a brazen desire to live, burning the soles of shoes on the dance floor, and an antagonistic attitude towards what they sell us as life are connected.

The raw and direct Hip-Hop of Trusty, the Pop melodies and catchy choruses of Edu Libra, the synths of Toni Taboo intersect with the guitars and some beats from another world, and from another time that is yet to come. Some of their songs are already hits for the LGTBIQ community and their concerts are a freedom party that turns any space into an endless dance floor.

In their music they claim collective solutions to problems that they sell us as individuals, perhaps for this reason they surround themselves with a large number of collaborators such as the Tremenda Jauría, the Argentine reggaetonera Chocolate Remix, the lesbian rapper Bittah from Tribade, Panxo from ZOO, the junk dealer of the future Nept1 or the LGTBI Hip-Hop ambassador Kenya Grammo Suspect...

With two albums on their back, Rizomas Salvajes (2018) and Bichx Rarx (2020), on February 11, 2022 they surprise us with a new album: Neocancaneo (Delirics, 2022). An album that represents a way of showing the most shameless part of life, cruising in the parks on the outskirts of the city, smiling at the little that the patriarchal system leaves us, and empowering themselves as people who love to live and who want to burst any trace of repressive morality from the corpse of patriarchy.

This album is more cheeky than ever, more eager to dance, closer to electro-punk and more rebellious than the previous ones. Grunge guitars for the dance floor, "coreable" choruses, Dionysian Hip-Hop at the end of time and beats that come to get you off the couch at 150 bpm. Berlin and Seattle hooking up at an underground party in Barcelona.
